

Exercise - Inserting Footnotes

Sukhjit Singh Sehra and Sumeet Kaur Sehra

5th August, 2021

Tasks to be performed

1. Insert more footnotes in different styles.

Demonstration

1 Introduction

I'm writing something here to test ¹ several features. You can write the footnote text² in its own line.

For instance³ I can use the same footnote more than once³. The command `\footnotemark[\value{footnote}]` inserts a superscript corresponding to the current value of the counter footnote.

¹footnotes working fine

²Second footnote

³footnote with two references
