Exercise - Inserting Footnotes

Sukhjit Singh Sehra and Sumeet Kaur Sehra 5th August, 2021

Tasks to be performed

1. Insert more footnotes in different styles.

Demonstration

1 Introduction

I'm writing something here to test 1 several features. You can write the footnote text 2 in its own line.

For instance³ I can use the same footnote more than once³. The command \footnotemark[\value{footnote}] inserts a superscript corresponding to the current value of the counter footnote.

 $^{^{1}\}mathrm{footnotes}$ working fine

²Second footnote

 $^{^3}$ footnote with two references
